

BOOK response using VOOKS

I created these simple book response sheets for students to use with Vooks.

Students can listen to any story and retell the parts of the story using these simple response sheets.

Possible directions: Print out and leave for students to respond/retell one of the stories that they listened to/watched, using the streaming platform Vooks. This can be done independently, with a partner, in a small group, or even whole group.

VOOKS
